# DEAR FRIEND,

As we make our way into this new year, I'd like to take a moment and look back at all that was accomplished in 2023.

2023 was a year of transition for the Alliance. In January we had a change of leadership. After fifteen years with the organization, I was given the opportunity to transition into the role of Executive Director. Along with this major change, we relocated, hosted the annual AIDS Walk, secured funding that enabled us to enhance and expand our programs, added new members to our team, and brought back BINGO!

Over the year our team put in tremendous effort to expand our services and provided exceptional support and care to all of our clients. Thanks to their hard work, thousands of individuals received free HIV/STI testing, fed their families, and found a sense of community and strength.

We couldn't have achieved what we did without the incredible support of community members, like you! Your generous donations in 2023, both monetary and in-kind, played a significant role in enabling us to provide essential services to those in need, completely free of charge. For that, we are truly grateful.

Here's to a year of happiness and good health for all!

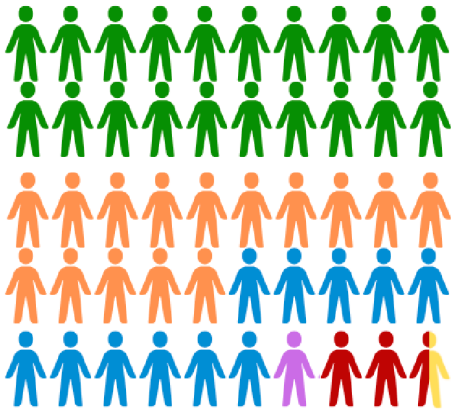

Sincerely,  
Tiffany Hickman  
Executive Director

Our Prevention team tested individuals  
from 60 NC counties in 2023!

In 2023 we welcomed 4 new Prevention Specialists to the team. With more staff and an increase in grant funding we were able to expand our services to include more rural parts of the state, and to add Mpox education & prevention to our programming.

# Care & Support

Our food pantry continues to be an essential resource for individuals in the Triangle area. In 2023 we saw an exponential increase in need and served 41% more households than we did in the previous year.

When we relocated this past August, the size of our pantry space expanded significantly. We also hired an additional full-time Care & Support Specialist. These changes boosted our capacity, and as a result, we managed to serve 62% more individuals in 2023 and increased the number of home deliveries by 290%

In 2023 we secured grand funding that will allow us to purchase a new refrigerated truck. With this truck will come our new Mobile Pop-Up Markets! We plan to host two monthly pop-ups in the city and surrounding rural areas, bringing fresh, healthy food to individuals who may otherwise be unable to access it.

In addition to our pantry, we continue to host weekly support groups, provide supplements, and offer one-on-one counseling to HIV+ clients.
